IntelliPeak Solutions, Inc. is a SBA 8(a) Program Participant, Minority and Veteran-Owned Small Business that specializes in providing technical and consulting services. Our primary focus is to provide best-in-class technology and business or mission process recommendations to derive the maximum IT efficiencies out of an organization's hardware and software investments. Based on proven methodologies to map mission and business requirements to the right information technology solutions, the IntelliPeak Solutions team is able to provide quantifiable results throughout every engagement. We provide vendor-agnostic information technology recommendations and solutions that meet mission and business requirements with an additional analysis that reflects what the overall estimated Total Cost of Ownership (TCO) is for the selected solution.

Areas of Expertise:

- Network & Security Assessment Services
- Data Center Architecture Services
- Modeling & Simulation Services
- Business Intelligence and Data Visualization Services
- Hardware/Software Implementation Services
- Systems Integration Services
- Training Services

With over 30 years of combined Federal information technology experience, IntelliPeak Solutions, Inc. is uniquely positioned to provide the vendor-agnostic assistance, guidance, and recommendations that many customers require today in order to maximize the efficiencies derived from their information technology investments. Please give us a call or e-mail us to see how we can help you achieve the most measurable value from your IT investments, cloud strategies, or data center consolidation plans.
